Backend:	Node.js, Express.js, REST APIs, GraphQL, Socket.io, JWT, OAuth, Mongoose
Databases:	MongoDB, PostgreSQL, MySQL, Firebase, Supabase, Redis
DevOps & Tools:	Docker, GitHub Actions, AWS, GCP, Vercel, Netlify, Render
Testing:	Jest, Cypress, React Testing Library, Postman
Other:	SEO, UI/UX, API Integration, Real-Time Systems, Performance Optimization, Agile

EXPERIENCE

Full Stack Engineer / Software Engineer

2026

Daniekeys Studios — Remote

- Built and architected full stack client onboarding and project management platform with real-time workflows
- Developed REST APIs and backend services with Node.js, Express.js, and JWT-based authentication & authorization
- Implemented secure session management and OAuth integrations for client access control
- Developed dashboards, proposal systems, and automation features
- Improved SEO and performance optimization for production applications
- Integrated AI-driven features for workflow efficiency
- Collaborated with designers and backend engineers

Tech: Next.js, React, TypeScript, Tailwind CSS, Node.js, Express.js, JWT, OAuth, MongoDB, REST APIs

Software Engineering Intern

2026

Afriment — Remote

- Assisted in frontend development and debugging tasks
- Worked on responsive UI components and API integration
- Collaborated using Git workflows in Agile teams

Tech: React, JavaScript, Tailwind CSS

Full Stack Developer

2025 – Present

Ryva — Nigeria

- Built scalable web applications using Next.js and Node.js
- Designed REST APIs and backend services
- Managed deployments on Vercel

Frontend Developer

2025

Platter — Remote

- Built responsive real estate platform UI
- Designed reusable and accessible components

Freelance Web Developer

2023 – Present

Self-Employed — Worldwide

- Delivered custom web applications for clients globally
- Handled frontend, backend, SEO, and deployment end-to-end
- Built production-ready systems for startups

PROJECTS

E-Commerce Platform

Built a scalable e-commerce system using Next.js, TypeScript, Firebase, Zustand, and Cloudinary. Features include product filtering, cart system, and responsive UI.

Real-Time Chat App

Built using React Native, Node.js, Express, MongoDB, Socket.io. Includes authentication, media sharing, and offline messaging.

Client Onboarding System

Designed workflow platform with dashboards, onboarding flows, and project tracking.

EDUCATION

Bachelor of Technology (B.Tech)

Federal University of Technology Minna

CERTIFICATIONS & LEARNING

- | | |
|----------------------------------|------------------------------|
| • Frontend Engineering | • Full Stack Web Development |
| • React & Next.js Development | • API Development |
| • TypeScript & Modern JavaScript | • UI/UX & Responsive Design |

SOFT SKILLS

Problem Solving • Communication • Teamwork • Leadership • Adaptability • Time Management • Attention to Detail
